

Mineral Sector Sustainability Roundtable

Thursday 02 November 2006

Venue: Rydges Hotel, 186 Exhibition Street, Melbourne VIC

The Co-operative Research Centre for Sustainable Resource Processing (CSRP) is proud to host a half-day roundtable for the Minerals Sector to discuss and share topics and issues on sustainability.

Speakers will present on the most challenging aspects facing industry as we come to terms with sustainability - what it is and how we might achieve it. Highlights of CSRP's successes will be presented along with learnings from industry and elsewhere. You are cordially invited to join in the discussion, learn some of what industry is currently doing on this important topic and provide suggestions as to what else needs to be done. The Roundtable will be followed by a networking lunch and then by CSRP's Participants' Forum (which is open to CSRP members only).

Cost is complimentary. Open to the public.

RSVP by 18 October 2006 using the registration form or email lisa.laurie@csrp.com.au

Roundtable Program

Chair: Stevan Green, CEO, Centre for Sustainable Resource Processing

09:00	Welcome and Introduction
09:05	<p><i>"A Sustainability Perspective from outside the Minerals Sector"</i> Stephen Dovers (Professor, Centre for Resource and Environmental Studies, Australian National University) <i>Professor Dovers' research activities include the theoretical and policy dimensions of sustainability, institutional arrangements for resource management, science-policy linkages, and Australian environmental history. He is on the editorial boards of Environmental Science and Policy, Global Environmental Change, and Australasian Journal of Environmental Management. Stephen has recently published the book "Environment and Sustainability Policy: Creation, Implementation, Evaluation".</i></p>
09:30	<p><i>Sustainable Development in the Minerals Industry: CSRP Initiatives</i> Stevan Green (CEO, CSRP) CSRP's activities in Sustainable Development include improving water, energy and resource efficiencies; and minimising waste volumes and toxicity. Stevan will present on CSRP's successes to date and the threats and opportunities that have been identified.</p>
10:10	<p><i>Sustainable Development in the Minerals Industry: Global Activities</i> Philip Bangerter (Director, Sustainability & Technical Alliances, Hatch) Sustainable Development is being addressed on a global basis. Philip will present some of the latest thinking and case studies on SD from around the world.</p>
10:30	Morning Tea
10:50	<p>Panel Discussion <i>"What makes Sustainable Minerals Processing different to business-as-usual?"</i> Michael Barber (Group Executive, CSIRO) Hans Langendam (Steel Industry Consultant) Markus Reuter (Professor, Sustainable Technology, University of Melbourne) Ray Shaw (General Manager, Technology Support, Rio Tinto)</p>
12:00	Networking Lunch and Close at 13:00
